# Description of Evenings

Yr 7 transition evening: Three sessions designed to help you to support your child in their first year at Mangotsfield School. Then a chance to see their tutor for a “clinic” if you have any issues.

Yr 10/11 support evening: Three sessions designed to help you support your child through their GCSE years.

Cooking with your child: Come and use our fantastic cooking facilities and take the time out to cook with your child. You will learn together.

Yr 9 Information evening: This evening is designed to help you to make informed decisions about the options open to your child when deciding what GCSEs, Btecs or diplomas they will choose to study for the next two years

Parents' Drug Awareness evening: An unfortunate part of society today, this evening is designed to help parents talk to their child about drugs and alcohol.

Fitness testing for health: Come along and test all components of your fitness, find out how to improve them and why they are essential for good health.

Keeping your child safe on the internet: This evening is designed to make parents aware of the dangers of the internet to young people. It lets you know what they could be getting up to when you are not looking!

Aim Higher Parents evening: This evening is delivered by university students from 4 local universities. Sessions focus on funding, student life and career progression.

Latin for parents: This is a session normally delivered to our Gifted students. Try your hand at another language in an enjoyable way and impress your friends at the same time.

Art for parents: An open session where parents get to work in any medium be it pencil, pastels, paint or clay. Expert tuition whether you are an improver or a true beginner

Improve your digital photography: Bring along your photos and use the school's photographic suite to improve them whilst learning tips on how to make your special photos even better.

A day in the life of a museum curator. Everything you always wanted to know about archaeology & museums

“Yeah Whatever!” - Do you wish that you could communicate with your adolescent? Our trained counsellor gives tips on improving your relationship

From the end of September 2010 South Gloucestershire Community Learning Service will be offering free, 15-week literacy and numeracy courses here at Mangotsfield School as well as 10-week basic computer courses. The starting date for these courses is Thursday 30th September t will start at 6:30pm and finish at 8:30pm. The courses are free. For more information please see our website or contact Teresa Howell on 01454 864619
